KIDNEY INTERNATIONAL

Volume 19, Number 1, January 1981

Official Journal of the International Society of Nephrology

Le Journal de la Société Internationale de Néphrologie

Table of contents

EDITORIAL REVIEW

Pathogenesis of distal renal tubular acidosis. *Bobby J. Stinebaugh, Francis X. Schloeder, S. C. Tam, Marc B. Goldstein, and Mitchell L. Halperin* 1

LABORATORY INVESTIGATION

Cisplatin-induced changes in sodium, chloride and urea transport by the frog skin. *Egerton K. van den Berg, Jr., Peter C. Brazy, Andrew T. Huang, and Vincent W. Dennis* 8

Cellular calcium uptake in the action of prostaglandins on renal water excretion. *Tomas Berl* . . . 15

Electrophysiology of the early distal tubule: Further observations on electrode techniques. *Glen G. Allen and Lindsay J. Barratt* 24

Structural and functional study of the rat distal nephron: Effects of potassium adaptation and potassium depletion. *Bruce A. Stanton, Daniel Biemesderfer, James B. Wade, and Gerhard Giebisch* 36

CLINICAL INVESTIGATION

Assessment of total and divided renal plasma flow by ^{123}I-hippuran renography. *Alistair Mackay, Andrew S. Eadie, Alison M. M. Cumming, Andrew G. Graham, Frederick G. Adams, and Patrick W. Horton* 49

Unconventional bacteria in urinary tract disease: *Ureaplasma urealyticum*. *Douglas F. Birch, Kenneth F. Fairley, and Robin F. Pavillard* 58

Antibody-coating of bacteria in the urine in relation to various immunologic indexes. *Eckhard Budde, Günter Naumann, Wolfgang Nimmich, Irmhild Handschuck, and Bernd Hudemann* 65

Acid-base changes and acetate metabolism during routine and high-efficiency hemodialysis in children. *Bruce A. Kaiser, Donald E. Potter, Ralph E. Bryant, Hendrik J. Vreman, and Michael W. Weiner* 70

TECHNICAL NOTES

A micromethod to measure ammonia. *Surinder Cheema-Dhadli, Richard Hamat, Harrald Sonnenberg, and Mitchell Halperin* 80

Use of high-performance liquid chromatography for determination of urate concentrations in nanoliter quantities of fluid. *Edward J. Weinman, Deborah Steplock, Steven C. Sansom, Thomas E. Knight, and Harry O. Senekjian* 83

NEPHROLOGY FORUM

Prostaglandins and Bartter's syndrome. *Michael J. Dunn* 86

ABSTRACTS

National Dialysis and Transplant Meeting of Turkey, June 4–6, 1980 103

American Society of Nephrology, November 23–25, 1980 107

ANNOUNCEMENTS 272

KIDNEY INTERNATIONAL

Table of contents

LABORATORY INVESTIGATION

Lipid A induction of cytotoxic antibody to cultured syngeneic rat kidney tubular cells. *George P. Hemstreet, Patricia G. Enoch, Philip R. Fine, and Robert Wheat* 275

Ammonia addition into the medullary collecting duct of the rat. *Harold Sonnenberg, Surinder Cheema-Dhadli, Marc B. Goldstein, Bobby J. Stinebaugh, Douglas R. Wilson, and Mitchell L. Halperin* 281

Pathophysiology of altered glomerular function in aminoglycoside-treated rats, *Nestor Schor, Iekuni Ichikawa, Helmut G. Rennke, Julia L. Troy, and Barry M. Brenner* 288

Immunology of pyelonephritis in the primate model: Live versus heat-killed bacteria. *James A. Roberts, Gerald J. Domingue, Louis N. Martin, and J. C. S. Kim* 297

Renal hemodynamics and oxygen consumption during postischemic acute renal failure in the rat. *Niranjan Parekh and Ulrich Veith* 306

CLINICAL INVESTIGATION

Sexual dysfunction in the male patient with uremia: A reappraisal. *Warren R. Procci, David A. Goldstein, Janice Adelstein, and Shaul G. Massry* 317

The duodenal mucosa in patients with renal failure: Response to $1,25(OH)_2D_3$. *David A. Goldstein, Richard E. Horowitz, Steven Petit, Blaise Haldimann, and Shaul G. Massry* 324

Serial study of circulating immune complexes before and after renal transplantation. *Kaivilayil V. Johny, Mrinal K. Dasgupta, Thavisakdi Kovithavongs, and John B. Dossetor* 332

Hemodialysis vs. peritoneal dialysis: Results of a 3-year prospective controlled study. *David M. Roxe, Francesco del Greco, John Hughes, Frank Krumlovsky, Wallid Ghantous, Peter Ivanovich, Antonio Quintanilla, Marshall Salkin, Neil J. Stone, and Margaret Reins* 341

Chemiluminescence and superoxide anion production by leukocytes from chronic hemodialysis patients. *Elizabeth E. Ritchey, John D. Wallin, and Sudhir V. Shah* 349

SPECIAL ARTICLE

A network thermodynamic model of glomerular dynamics: Application in the rat. *Donald E. Oken, S. Randall Thomas, and Donald C. Mikulecky* 359

NEPHROLOGY FORUM

Lithium and the kidney. *Irwin Singer* 374

ABSTRACTS

Canadian Society of Nephrology, October, 1980 388

ANNOUNCEMENTS 396

KIDNEY INTERNATIONAL

Volume 19, Number 3, March 1981

Le Journal de la Société Internationale de Néphrologie

Table of contents

LABORATORY INVESTIGATION

Effect of acetylcholine on the early phase of reversible norepinephrine-induced acute renal failure. *John D. Conger, John B. Robinette, and Stephen J. Guggenheim* 399

Glomerular hemodynamics in experimental diabetes mellitus. *Thomas H. Hostetter, Julia L. Troy, and Barry M. Brenner* 410

Micropuncture study of the handling of gentamicin by the rat kidney. *Harry O. Senekjian, Thomas F. Knight, and Edward J. Weinman* 416

Acute renal failure induced by diethylaminoethyl dextran: Importance of cationic charge. *Charles F. Simmons, Jr., Helmut G. Rennke, and H. David Humes* 424

Mechanism of osmotic diuresis. *Øystein Mathisen, Morten Raeder, and Fredrik Kiil* 431

CLINICAL INVESTIGATION

Antihymocyte globulin in cadaver kidney transplantation: A randomized trial based on T-cell monitoring. *Henri Kreis, Rafik Mansouri, Jean-Michel Descamps, Raymond Dandavino, Ann Thu N'Guyen, Jean François Bach, and Jean Crosnier* 438

Studies on the renin-aldosterone system in the acute nephritic syndrome. *Bernardo Rodríguez-Iturbe, Bruno Baggio, José Colina-Chourio, Silvana Favaro, Rafael García, Fulvio Sussana, Lisandro Castillo, and Arturo Borsatti* 445

Steroid-dependent nephrotic syndrome in children: Histopathology and relapses after cyclophosphamide treatment. *Norman J. Siegel, Karen M. Gaudio, Leonard S. Krassner, Bruce M. McDonald, Frederic P. Anderson, and Michael Kashgarian* 454

Peritoneal dialysis during peritonitis. *Jack Rubin, Sandra McFarland, Eric W. Hellems, and John D. Bower* 460

TECHNICAL NOTES

In vivo "culture" of a transporting renal epithelial monolayer. *Yaacov Bar-Khayim, Arthur H. Cohen, Barbara Houston, Walter Trizna, and Leon G. Fine* 465

Use of ultrasound for renal allograft biopsy. *Gerald B. Appel, Martin J. Saltzman, Donald L. King, and Mark A. Hardy* 471

NEPHROLOGY FORUM

Immunologic and genetic aspects of systemic lupus erythematosus. *Robert S. Schwartz* 474

ABSTRACTS

Dutch Society of Nephrology, March 15, 1980 485

ANNOUNCEMENTS 487

KIDNEY INTERNATIONAL

Volume 19, Number 4, April 1981

Table of contents

LABORATORY INVESTIGATION

Surface characteristics of carbonic-anhydrase-rich cells in turtle urinary bladder. *Russell F. Husted, Allan L. Mueller, Richard G. Kessell, and Philip R. Steinmetz.* 491

Hemodynamic and single nephron function during the maintenance phase of ischemic acute renal failure in the dog. *Robert H. Williams, Charles E. Thomas, L. Gabriel Navar, and Andrew P. Evan.* 503

Renal net acid excretion in the adrenalectomized rat. *A. H. E. Dubrovsky, R. C. Nair, M. K. Byers, and D. Z. Levine.* 516

Gentamicin incorporation along the nephron: Autoradiographic study of isolated tubules. *Alain Vandewalle, Nicolette Farman, Jean-Paul Morin, Jean-Paul Fillastre, Pierre-Yves Hatt, and Jean-Pierre Bonvalet.* 529

Evidence for activation of the renal glutamate dehydrogenase pathway in intact acidotic dogs. *Joseph V. Lombardo, Alvaro Risquez, Michael McCarthy, and Harry G. Preuss.* 540

Isolation of anionic sialoproteins from the rat glomerulus. *Thomas E. Nevins and Alfred F. Michael.* 553

CLINICAL INVESTIGATION

Glucose absorption during continuous ambulatory peritoneal dialysis. *Gerald P. Grodstein, Michael J. Blumenkrantz, Joel D. Kopple, John K. Moran, and Jack W. Coburn* 564

Decreased phosphate reabsorption after renal transplantation: Evidence for a mechanism independent of calcium and parathyroid hormone. *Robert W. Rosenbaum, Keith A. Hruska, Adel Korkor, Charles Anderson, and Eduardo Slatopolsky.* 568

HBsAg glomerular deposits in glomerulonephritis: Fact or artifact? *Quirino Maggiore, Filippo Bartolomeo, Amedeo L'Abbate, and Valerio Misefari.* 579

Aluminum removal by hemodialysis. *Helmut Graf, Hans K. Stummvoll, Vanee Meisinger, Josef Kovarik, Axel Wolf, and Wulf F. Pinggera.* 587

Protein losses during peritoneal dialysis. *Michael J. Blumenkrantz, Gerhard M. Gahl, Joel D. Kopple, Anjana V. Kamdar, Michael R. Jones, Michael Kessel, and Jack W. Coburn.* 593

TECHNICAL NOTE

Changes in glomerular filtration rate during complete ureteral obstruction in rats. *Robert H. Harris and James M. Gill.* 603

NEPHROLOGY FORUM

Glomerular disease complicating abdominal sepsis. *Michel Beaufils.* 609

ABSTRACTS

The Renal Association, October 23, 1980 619

KIDNEY INTERNATIONAL

Table of contents

EDITORIAL REVIEW

Lipid abnormalities in uremia, dialysis, and transplantation. *Man Kam Chan, Zachariah Varghese, and John F. Moorhead.* 625

LABORATORY INVESTIGATION

Selective distal nephron damage during isolated kidney perfusion. *Daine Alcorn, Kerry R. Emslie, Brian D. Ross, Graeme B. Ryan, and John D. Tange.* 638

Urea synthesis in moderate experimental uremia. *Carolyn Abitbol, Genevieve Jean, and Michel Broyer.* 648

Pyelonephritis: The relationship between infection, renal scarring, and antimicrobial therapy. *Thomas Miller and Susan Phillips.* 654

Immunoenzymatic study of the protein pathway through the glomerular barrier in rat glomerulonephritides. *Jean Bariety, Blanche Bellon, Catherine Sapin, Joëlle Kuhn, Philippe Druet, Nicole Hinglais, Jacques-Paul Giraud, Marie-France Belair, Michel Paing, and François Laliberte.* ... 663

Effect of aldosterone on the transepithelial potential difference of the rat distal tubule. *Glen G. Allen and Lindsay J. Barratt.* 678

Angiotensin receptors in glomeruli differ from those in renal arterioles. *William J.H. Caldicott, Kenneth J. Taub, Sharon S. Margulies, and Norman K. Hollenberg.* 687

CLINICAL INVESTIGATION

Daily requirement for pyridoxine supplements in chronic renal failure. *Joel D. Kopple, Kenneth Mercurio, Michael J. Blumenkrantz, Michael R. Jones, Julia Tallos, Charlotte Roberts, Berry Card, Robert Saltzman, Dennis A. Casciato, and Marian E. Swendseid.* 694

Effects of vasopressin on the isolated perfused human collecting tubule. *Norimoto Yanagawa, Walter Trizna, Yaacov Bar-Khayim, and Leon G. Fine.* 705

Urine and serum lactic dehydrogenase, lactic dehydrogenase isoenzymes, and alkaline phosphatase in the nephrotic syndrome. *Charles B. Murdock, Patricia J. Baker, Elizabeth DeLong, Charles R. Roe, and Stephen G. Osofsky.* 710

Mineralocorticoid-resistant renal hyperkalemia without salt wasting (type II pseudohypoaldosteronism): Role of increased renal chloride reabsorption. *Morris Schambelan, Anthony Sebastian, and Floyd C. Rector, Jr.* 716

Multiple use of dialyzers: Safety and efficacy. *Kotagal S. Kant, Victor E. Pollak, Margaret Cathey, Dan Goetz, and Rebecca Berlin.* 728

NEPHROLOGY FORUM

Exclusion from dialysis: A sociologic and legal perspective. *Renée C. Fox.* 739

ANNOUNCEMENTS 752

KIDNEY INTERNATIONAL

Volume 19, Number 6, June 1981

Official Journal of the International Society of Nephrology

Le Journal de la Société Internationale de Néphrologie

Table of contents

Proceedings of a Conference on
PROSTAGLANDINS AND THE KIDNEY
held at the Fischer-Bosch Institute of Clinical Pharmacology
Stuttgart, Germany, July 23–24, 1980

Renal prostaglandin synthesis and metabolism

Relevance of urinary 6-keto-prostaglandin $F_{1\alpha}$ determination. *Bernd Rosenkranz, Waichi Kitajima, and Jürgen C. Frölich.* 755

Metabolism of prostaglandins in the kidney. *Frank F. Sun, Bruce M. Taylor, James C. McGuire, and Patrick Y. K. Wong.* 760

Formation and metabolism of prostaglandins in the kidney. *Erik Änggård and Ernst Oliw.* 771

Renal hemodynamics

Prostaglandins and renal blood flow: In vivo studies. *Meyer D. Lifschitz.* 781

Prostaglandins and vascular tone in experimental obstructive nephropathy. *Aubrey R. Morrison and Julio E. Benabe.* 786

Electrolytes

Effect of prostaglandins on renal epithelial electrolyte transport. *Juha P. Kokko.* 791

Absence of direct effects of prostaglandins on sodium chloride transport in the mammalian nephron. *Leon G. Fine and Michael A. Kirschenbaum.* 797

Participation of renal cortical prostaglandins in the regulation of glomerular filtration rate. *Jürgen Schnermann and Josephine P. Briggs.* 802

Renin-angiotensin system

Interrelationship between prostaglandins and renin release. *John G. Gerber, Richard D. Olson, and Alan S. Nies.* 816

Role of the prostaglandins in renin secretion. *William L. Henrich* 822

Antidiuretic hormone

Vasopressin-prostaglandin interactions in the regulation of epithelial cell permeability to water. *Joseph S. Handler.* 831

Prostaglandins and water metabolism: A review with emphasis on in vivo studies. *Peter A. Gross, Robert W. Schrier, and Robert J. Anderson.* 839

Role of prostaglandins in the regulation of renal water excretion. *Herbert J. Kramer, Kilian Glänzer, and Rainer Düsing* 851

Kinins

Renal kinin-prostaglandin relationship: Implications for renal function. *Alberto Nasjletti and Kafait U. Malik* 860

Renal kallikrein-kinin: Its relation to renal prostaglandins and renin-angiotensin-aldosterone in man. *Keishi Abe, Makito Sato, Yutaka Imai, Toshiaki Haruyama, Ko Sato, Masao Hiwatari, Yutaka Kasai, and Kaoru Yoshinaga.* 869

NEPHROLOGY FORUM

Idiopathic edema: Role of diuretic abuse. *Hugh E. de Wardener.* 881

ANNOUNCEMENTS 893

INDEXES 898

The Guest Editors would like to thank the Symposium participants for their intellectual contribution and the Robert Bosch Foundation, Stuttgart, for their financial support.
